

Formal Recruitment Guidelines from RNW

Hello, Dear Sir/Ma'am,

Thanks to connecting with our T&P Portal. To keep complete transparency, we build the portal, and this will prevent us from the miscommunication in future so we will provide you with our student as an employee only through this portal. If any students come to you directly for a job, we request you to ask him/her for the course completion certificate from the Red & White and check it on our official certificate authentication portal on our website. Because it sometimes happens that other persons & students misuse our name for their own benefit and we came to know many times that is not our students when the company call us to check & review for that student's performance. We want to provide you with a candidate that can give you the best performance, and that's why the candidate should have completed his/her course with the certificate.

We hope you understand well and give us support in this matter.
